

“I am planning a new business venture, but I am confused about all the legalities.”

We can help. There are so many complex legal issues which need to be considered. Our two business lawyers offer our clients multi-disciplinary talents. Besides having a law degree, one also has a Masters of Business Administration Degree. The other has a business and tax background and worked as a CPA.

They can advise you on the different types of business entities, their characteristics, tax issues, and assist you in choosing the entity that is right for you. Straight talk. No ivory tower “legalese” spoken here. They can also help with the filing of appropriate forms and preparing the requisite documents.

Let us help get your business off to a good start!
